REPORT OF THE BOARD OF SELECTMEN

1933

To the Citizens of Pembroke:

The Board of Selectmen herewith present the report of an audit of the town's accounts for the year 1932 as rendered by the Director of Accounts, Department of Corporations and Taxation; also the seventy-ninth annual report of Town Officers and Committees, ending Dec. 31, 1933.

The Town has been fortunate in receiving its proportionate share of Civil Works Administration funds and with special regard to Mountain Avenue we feel that it has relieved the Town of the burden of making a special appropriation for the construction of that road. This work was undertaken as a C. W. A. Project as a result of our promise made at the annual Town Meeting; that if any available funds were allotted to the Town, such funds would be laid out on Mountain Avenue.

ALLAN E. LORD, Chairman,
WILLIAM A. KEY, Clerk,
EDGAR C. THAYER.

REPORT OF STATE AUDIT

The Commonwealth of Massachusetts
Department of Corporations and Taxation
Division of Accounts
State House, Boston

March 20, 1933.

To the Board of Selectmen
Mr. Edgar C. Thayer, Chairman
Pembroke, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Pembroke for the year ending December 31, 1932, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

TNW-MEF

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Pembroke for the year ending December 31, 1932, and report thereon as follows:

The financial transactions of the town, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and verified by a comparison with the books and records in the offices of the treasurer and the accountant.

The books and accounts in the accountant's office were examined and checked in detail. The recorded receipts were compared with the treasurer's books and with the books and records of the several departments in which charges originated or money was collected for the town. The records of disbursements were checked with the treasury warrants and with the payments as shown by the books of the treasurer. The appropriations and transfers, as recorded on the accountant's books, were checked and verified by a comparison with the town clerk's records of town meetings.

The recorded commitments and abatements of taxes and assessments were checked and proved, and the outstanding accounts were compared with the ledger balances and verified.

The ledger accounts were footed and analyzed, a trial balance was taken off, and a balance sheet showing the financial condition of the town as of December 31, 1932, was prepared and is appended to this report.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the payments as recorded on the books of the several departments and with other sources from which money was paid into the town treasury. The disbursements were checked with the warrants authorizing the treasurer to pay out town funds.

The cash book was footed and the cash balance as of February 3, 1933, was verified by a reconciliation with a statement furnished by the bank of deposit.

The payments on account of interest were checked to the canceled checks on file.

The securities and savings bank books representing the investments of the trust funds in the custody of the town treasurer were personally examined and the income was proved. Tables showing a reconciliation of the treasurer's cash and summaries of the trust funds are appended to this report.

The books and accounts in the collector's department were examined and checked in detail.

The commitments of taxes and assessments were verified by a comparison with the assessors' warrants.

The recorded collections were compared with the payments to the treasurer, the abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed and proved to the accountant's ledger accounts.

Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

Appended to this report are tables showing summaries of the tax accounts.

The town accountant should be notified promptly of abatements granted and of all commitments made by the assessors in order that his books may reflect the true condition of the tax accounts at all times.

The records of licenses issued by the selectmen, the town clerk, and the board of health were examined, and the payments to the State, county and the town were verified.

The attention of the town clerk is called to the provision of Chapter 289, Acts of 1932, which requires that the town clerk pay over to the town treasurer monthly all money due the county on account of dog licenses.

In addition to the departments and accounts mentioned, the records of the sealer of weights and measures, the town infirmary, and the library and water departments were examined and checked, and the payments to the treasurer were verified.

The surety bonds of the town treasurer, the collector of taxes and water charges, and the town clerk were examined and found to be in proper form.

For the co-operation extended by the several town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDW. H. FENTON,

Chief Accountant.

REPORT OF TOWN CLERK

WARRANT FOR ANNUAL TOWN MEETING

Plymouth, ss.

To either of the Constables of the Town of Pembroke,
in the County aforesaid,

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required and directed to notify and warn the inhabitants of the town of Pembroke who are qualified to vote in town affairs and elections therein, to meet at Assembly Hall in said Pembroke on Monday, the Sixth Day of March, 1933, at 7.00 o'clock in the evening, then and there to act on the following articles:

Article 1. To hear and act on the reports of Town Officers and Committees.

Voted: To accept the Selectmen's report.

Voted: To accept the Town Clerk's report.

Voted: That the Selectmen be and hereby are instructed to direct the Accountant to itemize, beginning with the year 1933, and each year hereafter, the accountant's annual report, so that the taxpayers may know how their money was expended and who received it.

Voted: To accept the Treasurer's report.

Voted: To accept the Collector's report.

Voted: To accept the Overseers' of Public Welfare report.

Voted: To accept the Librarian's report.

Voted: To accept the Fire Engineer's report.

Voted: To accept the Trustees Plymouth County Aid to Agriculture report.

Voted: To accept the J. J. Shepard Town Forest Committee's report.

Voted: To accept the Armistice Day Committee's report.

Voted: Not to accept the Water Commissioners' report.

In favor, 51.

Opposed, 63.

Voted: To accept the Memorial Park Committee's report.

Voted: To accept the Town House grading Committee's report, and that a rising vote of thanks be extended to Mr. Fred W. Snow for the work he has done.

Voted: To accept the School Committee's report.

Voted: To accept the Town Hall Committee's report as a report of progress and that the Board of Select-

men be instructed to discharge this committee, and that the selectmen be instructed to employ a competent contractor to make the repairs and do the additional work the architect says must be done before he will accept the building.

Article 2. To regulate the herring fisheries for the ensuing year.

Voted: that we raise and appropriate the sum of \$400.00 to be used by the Fish Committee, said committee to consist of the Board of Selectmen.

Unanimous.

Article 3. To see what sums of money the Town will raise by taxation and appropriate to defray the necessary and usual expenses of the several departments of the town for the fiscal year 1933, and especially for any or all of the following purposes, to wit:

Article 4. To see if the town will raise and appropriate the sum of \$180.00 for the Memorial Day exercises.

Voted in favor, unanimous.

Article 5. To see if the town will raise and appropriate the sum of \$150.00 for the Armistice Day exercises.

Motion made and seconded to lay this article on table.

Article 6. To see if the Town will authorize the Treasurer with the approval of the Selectmen to borrow money in anticipation of revenue of the current financial year.

Voted: That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of revenue of the financial year beginning January 1, 1933, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Unanimous.

Article 7. To see if the Town will authorize the Collector to use all means for the collection of taxes which a Town Treasurer may use when appointed collector.

Voted: That the Collection be so authorized.

Article 8. To see if the Town will vote to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture a sum of money not exceeding \$175.00 and choose a Town Director as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws and acts thereon.

Voted as above and Frederick B. Turner chosen as Town Director.

Unanimous.

Article 9. To see if the Town will vote to transfer any available funds to meet any of the appropriations made under Article 3, of this warrant, or take any action relative thereto.

Voted: that we appropriate and transfer the sum of \$7,000.00 from the Surplus Revenue Account of the Town and \$593.98 from the Benjamin R. Standish fund to reduce the tax rate of 1933.

Unanimous.

Article 10. To see if the Town will authorize the Selectmen, as Agents of the Town, to sell lots on the shore of Big Sandy Pond, also lots of the Monponsett Lake and Land Company, owned by the town.

Voted: that the town authorize the Selectmen, as Agents of the town, to sell lots on the shore of Big Sandy

Pond, also lots of the Monponsett Lake and Land Company owned by the town, and that this commission continue from year to year until annulled at some annual town meeting.

Unanimous.

Article 11. Voted—that the sum of \$5,875.00 be raised and appropriated to be expended on highways, under the provisions of Sections 26 - 29, Chapter 81, General Laws, as amended.

Unanimous.

Article 12. Voted—that the Selectmen be, and hereby are authorized and directed to petition the Director of Accounts of the Department of Corporations and Taxation for an annual audit of the town's accounts, in accordance with the provisions of Section 35, Chapter 44, General Laws.

Unanimous.

Article 13. Voted—that the sum of \$180.00 be raised and appropriated to defray the expenses of suitable headquarters for the Arthur Briggs Church Post, American Legion.

Unanimous.

Article 14. Voted—that the sum of \$100.00 be raised and appropriated to be expended on the J. J. Shepherd Memorial Town Forest.

Unanimous.

Article 15. Voted—that we accept the deposits for the perpetual care of cemetery lots of Edward W. Ford, Asa Howland and Benjamin F. Toppan.

Unanimous.

Article 16. Voted—that the sum of \$2,500.00 be raised and appropriated to rebuild Center Street, beginning where the work left off at School Street in 1932, and working towards Center Pembroke, providing the State and County contribute to this work and the Selectmen shall employ as far as possible those residing within the town in the completion of said road, and that said road be let out to contract in the discretion of the Selectmen at the proper time it seems advisable so to do.

Unanimous.

Article 17. To see if the Town will vote to raise and appropriate a sum of money with which to purchase new equipment for the Highway Department, or take any action relating to same.

Voted—this article be postponed indefinitely.

Article 18. Voted—that we raise and appropriate the sum of \$250.00 to be expended on the Memorial Park in the Centre of the Town, and the same committee as last year to have charge of the work.

Unanimous.

Article 19. Voted—that the sum of \$500.00 be appropriated and transferred from the Benjamin R. Standish fund to be expended on the playgrounds on the

Town House lot under the direction of the Town House grading committee.

Unanimous.

Article 20. Voted—that we raise and appropriate the sum of \$300.00 for roadside burning.

Unanimous.

Article 21. Voted—that we raise and appropriate the sum of \$250.00 for an emergency car to respond to all fires, the same to be used by the Fire Engineers.

Unanimous.

Article 22. To see if the Town will vote to reduce the wages of unskilled labor from \$4.00 per day of eight hours, to \$3.60 per day of eight hours labor.

Motion—that the wages of unskilled labor be \$4.05 per day of eight hours labor.

In favor, 86.

Opposed, 31.

Article 23. To see if the Town will raise and appropriate a sum not to exceed \$1,400.00 with which to purchase a lot of land, 50 x 100 feet, located on Washington Street, opposite Barker Street, belonging to Gilbert H. West, and to erect thereon a suitable building with which to house the fire apparatus located in that district, or take any action relating to same.

Voted—that a committee be appointed by the selectmen consisting of three members of the Fire Engineers

and four citizens from the vicinity of Washington and Barker Streets, to investigate and make a report at the next annual town meeting.

Unanimous.

Article 24. To see if the town will vote a sum of money, sufficient to cut down Mountain Avenue from Centre Street to beginning of tarvia road, and tarvia same, or take any action relative to the same.

By petition.

Voted—that if the State contributes money from Chapter 90 Special, that a sum not to exceed \$5,000.00 be spent on Mountain Avenue, to cut down the hill from Centre Street to where the tarvia road now ends, that town labor be used.

Unanimous.

Article 25. Voted—that the sum of \$300.00 be raised and appropriated to be expended on the Town Landing on Oldham Pond, Wampatuck Street, so as to give the greatest amount of relief to the unemployed, the same committee to have charge of work.

Unanimous.

Article 26. Voted—that the By-Laws committee of 1932 be and are hereby instructed to continue their work in 1933 on said By-Laws, with legal opinion on the same and to report at the next annual town meeting.

Unanimous.

Article 27. Voted—that the Water Commissioners be and hereby are directed to make a thorough investigation as to the advisability of changing the present meter rates to a schedule, based on a definite charge per fixture as adopted by the Town of Hanover and to include their findings in their next annual report.

Unanimous.

Article 28. To see if the Town will authorize the water commissioners to sell the elevated tank and the proceeds from such sale to be used for the extension of water mains or take any action relative thereto.

Voted—this article be passed over.

Article 29. Voted—that the Selectmen and Highway Surveyor be and hereby are directed to make a reasonable charge for the use of all town trucks and equipment and to forbid their use under Chapter 81 and 90 unless a reasonable charge is allowed so as to provide the necessary accounting to determine costs and actual expenditures.

Unanimous.

Article 30. To see if the Town, as authorized by Section 100 of Chapter 41 of the General Laws, will raise and appropriate a sum of money for the purpose of indemnifying, in the manner specified in said Statute any injured police officer or fireman not covered as to loss of pay by the town's insurance policies; or to take any action relating thereto.

Not voted — illegal.

Article 31. To see if the Town will vote to accept contributions made by the employees of the school department for the year 1933 and authorize the Town Accountant and the Town Treasurer to credit all such contributions which may be made or which are received up to December thirty-first, Nineteen Hundred and Thirty-three to the appropriation voted for the school department, in addition to such sums as may be appropriated by the Town Meeting vote.

Voted—to pass this article over.

Article 32. Voted—that the sum of \$100.00 be appropriated and transferred from the Benjamin R. Standish fund for the purchase of additional equipment for the town offices.

Unanimous.

Article 33. To see if the Town will vote to transfer certain unexpended balances, to the surplus revenue account.

Voted—That we transfer the unexpended balances of \$809.51 from Wampatuck Street and \$901.02 from West Elm Street, to the surplus revenue account.

Unanimous.

Art 34. Voted—that the Selectmen be and hereby are instructed to make the well and well-house on the old town hall land, safe and that we raise and appropriate the sum of \$50.00 to carry out this work.

Unanimous.

Subsequent meeting for the election of officers, under Section 23, Chapter 39, of the General Laws, was held Saturday, March 11, 1933, at six o'clock in the fore-noon and the polls were closed at 2 P. M., as per Article 35.

PETITION FOR RECOUNT

We, the undersigned registered voters of the Town of
Pembroke, County of Plymouth and Commonwealth of
Massachusetts, being among those who voted at the
election of town officers at the annual meeting of said
town held March 11, 1933, believing that because of the
inefficiency and incompetency of the tellers the votes
for Foster T. Backus, Emily C. Gillette, Marguerite T.
Simpson and Loring G. West for the two offices on the
School Committee, for three years, were incorrectly
sorted, counted and tabulated hereby petition the Hon-
orable Board of Registrars for a recount of said votes.

Mable M. Merritt, Barker Street.
Edith MacGregor Woods, Forest Street.
John C. Lefurgey, Barker Street.
Nellie N. Lefurgey, Barker Street.
Benjamin M. Drake, Taylor Street.

Gilbert H. West, Washington Street.
 Marjorie L. Gillette, Washington Street.
 Lloyd V. Smith, Washington Street.
 Lucretia M. Drake, Taylor Street.
 Dorothy H. Thayer, Barker Street.

COMMONWEALTH OF MASSACHUSETTS

Pembroke, Mass.,
 March 14, 1933.

Plymouth, ss.

Then personally appeared Gilbert H. West, one of the signers of the foregoing, who made oath that the statement herein contained are true to the best of his knowledge and belief, before me,

WILLIAM A. KEY,
 Justice of the Peace.

Received March 14, 1933, 4h. 45m. P. M.

WILLIAM A. KEY,
 Clerk of Registrars of Voters.

March 17, 1933.

On petition for a recount of votes cast for school committee members, on March 11, 1933, the registrars of voters met at the town house March 17, 1933, at 8 o'clock in the evening and recounted the votes cast for the school committee members on March 11, 1933, with the following results:

School Committee Members, for three years

Vote for two

Foster T. Backus,	213
Emily C. Gillette,	201
Marguerite T. Simpson,	209

HENRY N. MAGOUN,
JAMES M. BOURNE,
ROBERT L. S. WADSWORTH,
WILLIAM A. KEY,

Registrars of Voters.

March 18, 1933.

William A. Key,
Town Clerk.

The following resignation was received by the Board of Selectmen:

Gentlemen:

I hereby tender my resignation as Water Commissioner for the Town of Pembroke, effective immediately. This action is necessary because of the increased obligations of my business due to the very death of my partner a few weeks ago.

I wish to thank the selectmen for the courtesy and co-operation they have extended the Water Commissioner during the two and one-half years which it has been my pleasure to serve.

Very truly yours,

A. B. CONANT.

March 18, 1933.

Town Clerk of Pembroke.

You are hereby notified that we, the Subscribers, Selectmen of Pembroke, have this day received and voted to accept the resignations of A. B. Conant as water commissioner; Elmer O. Norris, A. B. Conant and Edward E. Turner, Town Hall Building Committee, to take effect immediately.

Charles R. Bates was appointed Inspector of Animals and Slaughtered Meats for the ensuing year subject to the approval of the State authorities.

BOARD OF SELECTMEN.

March 25, 1933.

Town Clerk of Pembroke.

You are hereby notified that we, the Subscribers, Selectmen of Pembroke have this day appointed Mr. Bryan Leonard, water commissioner, until the next annual town meeting, to take the place of Mr. A. B. Conant, also that we have appointed Edward R. Chute, fish warden for the ensuing year.

BOARD OF SELECTMEN.

April 19, 1933.

I, Harold G. Ray, hereby send in my resignation as Moth Superintendent of the Town of Pembroke.

HAROLD G. RAY.

Accepted by the Selectmen and John C. Lefurgey appointed to fill vacancy.

The Selectmen appointed the following persons to serve on the committee in regard to the fire building to

be located in North Pembroke in accordance to the vote under Article 23, at the annual town meeting:

Horatio H. Daub, Loring G. West, George K. Gillette, Jr., fire engineers, and Harry I. Ford, Granville M. Thayer, Edmund E. Crossley and Herbert E. Young.

June 17, 1933.

Town Clerk of Pembroke.

You are hereby notified that the Board of Selectmen have this day received the resignation of William A. Howard, as Chief of Police, of the Town of Pembroke.

WARRANT FOR SPECIAL STATE ELECTION

Plymouth, ss.

To either of the Constables of the Town of Pembroke, in the County of Plymouth and the Commonwealth of Massachusetts.

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Pembroke qualified to vote in elections, to meet in the Town House, Tuesday, the Thirteenth Day of June, 1933, at two o'clock, P. M., then and there to act on the following:

To bring in their votes to the election officers for the election of Delegates to a Constitutional Convention called to Ratify or Reject the Amendment to the Constitution of the United States, proposed by Joint Resolution of Congress.

Three Delegates 15th Congressional District.
Also to vote "Yes or No" on the following question:

"Shall licenses be granted in this town for the sale therein of wines and malt beverages"?

All the above to be voted for upon one ballot in the manner prescribed by law.

The polls will be open from 2.00 P. M. to 7.00 P. M.

And you are directed to serve this warrant by posting attested copies thereof, seven days at least before the time of said meeting as directed by vote of the town.

Hereof fail not and make return of this warrant with your doings thereon to the town clerk at the time and place of said meeting.

Given under our hands this first day of June, A. D. 1933.

ALLAN E. LORD,
EDGAR C. THAYER,
WILLIAM A. KEY,
Selectmen of Pembroke.

Following results of election. Vote for three

Delegates Opposed to Ratification (Against Repeal).	
Adelaide M. Brown, of Cohasset,	37 votes
Herbert N. Hinckley, of Tisbury,	34 votes
Elizabeth H. Kelley, of Yarmouth,	34 votes

Delegates Favoring Ratification (For Repeal).

Henry T. Geary, of Plymouth,	158
Gladys P. Swift, of Barnstable,	155

Ferdinand Sylvia, of New Bedford,	153
Defective,	9
Blanks,	44
Total	<hr/> 624

Shall licenses be granted in this town for the sale therein of wines and malt beverages?

Yes — 170 votes.

No — 36 votes.

Blanks — 2 votes.

Total — 208 votes.

WILLIAM A. KEY,
Town Clerk.

SPECIAL TOWN MEETING

November 22, 1933.

At a legal meeting of the inhabitants of the town of Pembroke, qualified to vote in town affairs and elections, held at Assembly Hall, November 22, 1933, at 8 o'clock in the evening, under a warrant issued by the Selectmen, dated November 11, 1933, duly attested and posted by William R. Tewksbury, a Constable of Pembroke, action was taken on the articles in the warrant as follows:

Article 1. Voted—that the sum of \$2500.00 be appropriated and transferred from the surplus revenue account of the town, to the Welfare Department to meet the expenses of that department for the remainder of the fiscal year 1933.

Unanimous.

Article 2. Voted—that we appropriate and transfer from the surplus revenue account of the town, the following sums of money for the several departments; Collector's, \$11.66; Assessors', \$17.50; Treasurer's, \$6.66; Town Clerk's, \$16.60; Highway Surveyor's, \$50.00.

Unanimous.

Article 3. Voted—that we appropriate and transfer from the surplus revenue account of the town, the sum of \$600.00 to meet the expenses of the Highway Department anticipated for the remainder of the fiscal year 1933.

Unanimous.

Article 4. Voted—that we create and establish a Highway Equipment Fund, said fund to be maintained from charges on town equipment when used on Chapters 81 and 90 work and all other work on which such equipment is used.

Unanimous.

Article 5. Voted—that the Welfare Department be and hereby is authorized to have the wood on the so-called "Marcia Parry Lot" belonging to the town cut; said work to be done under the supervision of the Overseers of Public Welfare.

Unanimous.

Voted—to adjourn this meeting:-

WILLIAM A. KEY,

Town Clerk.

REPORT OF THE BOARD OF PUBLIC WELFARE

For the reason that the Welfare Board activities during the past year have taken several different forms, we are listing our report in sections.

GENERAL REMARKS

Welfare costs for the past year have reached a point greater than ever before. Business conditions and the depression are, of course, the real cause. C. W. A. work has unquestionably lessened our expenditures, but this fact does not show on a comparison of figures for the reason that more requests than ever before have come in for aid.

WOOD

By the purchase of wood on the stump and cutting, the Welfare Department was able to keep a good number of men employed who otherwise would have been directly on welfare relief. Such activity on their part, even at the low wage we were in a position to pay, spoke well for the attitude of these men and enabled us to turn to aid other families in need of fuel. While costing us about \$1,400.00 in round figures, and securing a return of roughly \$1,000.00 in wood sale, the total cost to the department was but \$400.00 and more than ordinary good was accomplished.

TOWN FARM

The situation at the town farm has been greatly improved. A Superintendent has been secured who has had a wide experience in practical farm work and a matron who is filling that position very satisfactorily. The farm under their management for a few years should show not only material improvement in physical appearance, but production of farm goods should be greatly increased and used to the advantage of the town.

C. C. C. CAMPS

Through the efforts of the chairman of our committee we have been fortunate in placing three of our town boys in C. C. C. camps. This has been not only a welfare relief but we feel the experience will prove of wonderful value to the boys in time to come.

C. W. A. WORK IN PEMBROKE

While not an activity of the Welfare Department, the Chairman of the Board was appointed Civil Works Administrator, as well as in charge of Emergency Relief. With the assistance of the other board members, both money and goods have been conscientiously distributed to what appeared to be the most needy cases. Due to Government regulations the distribution of material has required excessive effort and from a standpoint of economics, — the person effort of all board members.

Allotments of butter, beans, eggs, pork, blankets, were of such a nature as to require a house to house delivery and individual signatures, on receipt of forms by the recipients. In addition to this the material had to be secured from various points which changed weekly, — such as a case of eggs at Scituate, another at Weymouth,

— Pork at the store of one of our town merchants, blankets at Kingston, more pork at Plymouth and so on.

Through the medium of the C. W. A. activities in Pembroke, a payroll of roughly \$1,000.00 to \$1,500.00 weekly has come into the town from December 15th up to the period of reduction of working hours, — the placement of practically all welfare recipients able to work on a work basis plus others unemployed, involving about 90 different families. In spite of the extreme cold and discouragement practically all workers have taken the work with the proper spirit, have tried to produce as much as they can for every dollar expended, — and as a result the officers feel Pembroke work under the C. W. A. will rank as high as any in the State.

Credit should be given our Highway Surveyor, William Howard for his work in supervising all highway work under the C. W. A. without charge, as well as to Edgar C. Thayer, who has acted in the capacity of Civil Works Administrator throughout the emergency to date, also without cost to either the town or Civil Works Projects.

To the date of this report going to press, we had allotted to us and individually distributed nearly all instances house to house, 3 cases of eggs or 90 doz., 120 lbs. beans, 210 lbs. butter and 400 lbs. pork, involving in all the handling and distribution of roughly 200 items. In addition to this as a part of Government Welfare Relief, — 70 tons of Stove Coal have been put out to the aid of Pembroke families, — two stoves provided and set up, — and roughly 20 cords of wood distributed, — not to mention many individual efforts by board members in the emergency.

During the year, the Board suffered a material loss in the death of Mrs. Lizzie Sweeney who passed away in

May, 1933. She was a member of the board for only a little more than one year but always had a conscientious interest in our activities throughout her term of office.

EDGAR C. THAYER, Chairman,

WILLIAM A. KEY, Clerk,

CLIFTON R. BATES,

FLORENCE A. WHITCOMB,

Board of Public Welfare.

REPORT OF THE LIBRARIAN

The year 1933 has been a year of activity for the Pembroke Free Library. Three hundred and sixty-seven books have been added to the library. Of these, one hundred twenty were juveniles and fifty-three non-fiction. Ninety-six of the total number were gifts, a number of them being state publications, the rest donated by friends. A number of these were duplicates, and replaced worn-out volumes.

A small branch library, cared for by Mrs. Ellis Hartwell has been carried on at East Pembroke. A loan deposit has been placed in the Hanson Library, another in the Cobb Library at Bryantville. About one hundred and seventy-five books were in use at the Bryantville School, and a large number in the Central School, where Grades I to IV have had access to them. The circulation in these grades has been particularly gratifying. By these loans a large part of the town has had the opportunity of using our books.

In return we have received loans from the Cobb and Hanson Libraries. We have also had the loan of valuable non-fiction books, from the Massachusetts Division of Public Libraries.

The circulation has increased to approximately nineteen thousand. Exact records of the school circulation are not obtainable, but the above figures seem a fair estimate.

The Massachusetts Division of Public Libraries urges towns to appropriate for library work at least one dollar for each inhabitant of the town. Our present appropriation of five hundred dollars is less than half the sum recommended, but every effort has been made to spend the money to the best advantage. Increased circulation means more wear. More funds are needed for rebinding. More money would mean more reference books for school use. More and better magazines are asked for by patrons. The juvenile department needs building up, but this is impossible if we are to provide an adequate supply of books for general, recreational reading for adults.

We feel that the library has carried a definite place in the life of the town, and hope for continued and adequate support.

ELLEN F. COX,

Librarian.

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen,
Pembroke, Mass.

Gentlemen:

As provided by Section 42, Chapter 32, Revised Laws of the Commonwealth of Massachusetts, we present herewith a report of the activities of the Fire Department, for the year ending December 31, 1933.

In submitting our report for the year 1933, we desire first to express our appreciation for the co-operation given us by the town officers and citizens in general.

CHIEF AND WARDEN'S REPORT FOR 1933

Number of fire calls were ,	27
Number of pieces responding were,	36
Number of men answering to calls were,	206
Amount paid to Pembroke men,	\$295.48
Amount paid Hanover,	47.50
	<hr/>
	\$342.98

There were seven calls to which 24 men responded and made no charge for same.

HORATIO H. DAUB,

Chief and Forest Warden.

Valuation of motorized equipment when purchased up to Decem- ber 31, 1932,	\$21,309.85
--	-------------

Purchase price of added equipment
in 1933:

Emergency Car,	\$250.00	
4 tanks for fuel oil storage,	33.00	
1 two hp. Siren, Station No. 3,	200.00	
2 M. S. A. Ammonia masks,	40.00	
1 Shutoff Play Pipe,	12.50	
2 Double Male and Double Fe- male connections,	8.75	
2 Fire Freeze Holders,	6.00	
	<hr/>	550.25
		<hr/>
		\$21,860.10

Aside from our budget, there are two articles to appear in the Warrant for the annual Town meeting, pertaining to the Fire Department, but we feel they are aside from the maintenance of the Department.

First: Roadside burning: This is a very important fire prevention. Clearing up the roadside improves appearances, makes driving safer, and gives employment to townsmen.

Second: The Massachusetts Civil Works Administration has made it possible for us to put in some water holes in the out-lying sections of the town, which will give good fire protection. These water holes should be fenced to keep leaves from blowing in and also to keep small children from falling in them.

BUDGET

Station 1, Bryantville,		
Rent and care of heat,	\$125.00	
Station 2, High Street,		
Rent and care of heat	100.00	
Station 3, North Pembroke,		
Rent and care of heat	75.00	
Station 4, East Pembroke,		
Rent and care of heat	75.00	
Station 5, Centre Pembroke,		
Rent and heat,	75.00	
	<hr/>	\$450.00
Oil for heating,	\$75.00	
Soda and acid,	20.00	
Gas and oil for motors,	100.00	
Incidentals,	100.00	
Fire Fighting,	1,000.00	
Salaries,:		
Warden,	300.00	
Chief,	300.00	
	<hr/>	\$1,895.00
		<hr/>
		\$2,345.00

HORATIO H. DAUB, Chief Engineer,
 ELLIOTT S. FORD,
 JAMES MILBERY, JR.,
 MERLE C. BENSON,
 JOSEPH WILLETT,
 MELVIN B. SHEPHERD,
 GEORGE F. SIMPSON,
 GEORGE K. GILLETTE, JR.
 LORING G. WEST,
 SHIRLEY R. MANN.

NOTICE

Your attention is hereby called to the law requiring a permit for every month in the year for setting a fire in the open, unless the ground is covered with snow. Permits may be had over the telephone by giving name of person who is going to take charge of the fire, location and owner of land.

Best time to obtain permits is 7 to 8.00 A. M., and 12.15 to 12.45 P. M.

Telephone, 104 Bryantville.

Notice — No permits will be issued for Sunday burning unless a working permit is first obtained from the Chief of Police.

HORATIO H. DAUB,

Forest Warden.

REPORT OF THE POLICE DEPARTMENT

There has been in the past much criticism of the local Police Department if it can be called such. Such criticism if honest must be aimed, not at the personnel of the force, who at best try to carry out their duties under tremendous handicaps, but at the clumsy inefficient system under which they attempt to operate.

In 1932 with an appropriation of \$1,200.00, almost \$400.00 was needed for the maintenance of traffic signs, beacons, etc., leaving only a balance of \$800.00 for actual police work. Compare this with the Fire Department you choose to maintain with its thousands of dollars in equipment and an adequate budget in the same year of over \$3,000.00, all this because it has been found necessary for proper fire protection. There seems to be a lack of proper balance here. The growing demands made upon the present police system have now reached the stage where the proper functioning of the department is seriously curtailed. It is both useless and unfair to demand "action" and "results" from an unorganized police, unequipped and lacking sufficient funds to properly finance their work.

With the view in mind of correcting the faults outlined above, the writer has talked with various competent police officials and the results of such investigations are indicated in the following steps of a plan offered for

your consideration, to provide the town with police protection it sadly needs and is certainly not now receiving:

1. Appointment of a full time Chief of Police.
2. Appointment of such special police and in such numbers as the Chief deems necessary.
3. Installation of simple police record system to be kept up to date at all times.
4. Purchase for the use of the Chief a reliable used car equipped with short-wave radio for use as a cruising car.
5. Appropriation of sufficient money to provide for salary of Chief, purchase of car and upkeep of same, wages of special police and constables, all other department expense.

A tentative budget designed to cover the foregoing items is given as follows:

\$1,200.00	Salary of Chief.
400.00	Cost of Radio-equipped Car.
450.00	Up-keep of Car for 12 Months.
500.00	Wages, Specials and Constables.
200.00	Maintenance, Traffic Beacons, Signs, etc.
50.00	Telephones, Postage, etc.
<hr/>	
\$2,800.00	Total.

A few of the operating details of the above plan taken at random are as follows:

The Chief would shoulder the bulk of the actual police duties, present and prosecute all District Court cases. Keep all records and be available at all hours. Spend at

least five or six hours of each day or more if necessary according to the season of the year, cruising in his car in the different sections of the town, including the summer home properties around the ponds. By means of the State Police Short-Wave Broadcasting Station at Bridgewater the local Chief would be available instantly to every citizen who is within reach of a telephone. The procedure for calling the police under this system is simple. You would simply call your exchange and ask for police, giving your name and location in town. The operator calls Bridgewater State Police barracks and gives the information to the radio operator who in turn puts the call on the air. The call is received by the local cruising car which immediately proceeds to the address given.

It is felt that the knowledge of the presence of a police officer always on duty and one whose whereabouts are at no time definitely known, would tend, in some measure, to forestall the looting of summer homes, the stealing of poultry, infractions of traffic regulations, operation of speak-easies, etc.

Some eight months ago, Mr. Howard, your former Chief of Police resigned. At the request of the other members of the Board of Selectmen, the writer agreed to serve as acting Chief until the annual town meeting, at which time a new Chief will be appointed to carry on.

In closing allow me to remind you that the success or failure of the Police Department as just discussed depends principally upon the selection of an experienced man, anxious at all times to broaden his education in police work and the tools with which he can do a workman-like job.

Signed,

ALLAN E. LORD.

REPORT OF THE PLYMOUTH COUNTY EXTENSION SERVICE FOR PEMBROKE

The rapidly changing economic conditions of the past year have created many pressing problems for farmers of the county. The Extension Service has been called upon more frequently than ever before to furnish information and advice that the farms of the county might be operated as efficiently as possible, that families might use their resources to the best advantage and that boys and girls might learn through their 4-H clubs to assist in meeting the problems of their parents.

Through county-wide and local meetings, tours and demonstrations, through circular and personal letters, farm and home visits, office and telephone calls, and through such other agencies as the "Farmer" and newspaper articles, information, instruction, and advice have been made available to farmers of all classes, to the homemakers of the county and 4-H club members. Over 3,000 farmers and in all nearly 7,500 different individuals in Plymouth County have been in direct contact with the Extension Service during the past year.

Marketing problems and those of farm finance have been even more pressing than those of production. The Extension Service has devoted much time and effort toward the solution of these difficulties, both with individual farmers and with county-wide groups of dairymen, poultrymen and others.

The following report tells briefly some of the ways in which the work affected the citizens of Pembroke.

Thirty-one personal visits were paid to individual farmers. Many others received information by telephone or personal letter. All farmers in Pembroke received regularly letters and circulars. Poultrymen, dairymen and others attended frequently the many agricultural meetings held in other towns for the benefit of the farmers of the county. A pruning meeting was held in Pembroke early in the spring and a talk on gardens was given at the Pembroke Grange.

Assistance to committees and organizations having charge of food relief work has been part of the home section nutrition program this year. In Pembroke this has been given through personal conferences followed by contribution of market order and recipe sheets and nutrition leaflets.

Bread from Red Cross flour was judged on Girl Scout evening at the Town Hall.

Pembroke also participated in the home furnishing program which was carried at South Hanson.

Four-H club members enrolled in the following projects during the past year — garden and canning.

The Pembroke Grange appointed a committee which visited the garden of each garden club member. This committee did a fine job and is to be congratulated.

Canning members were visited by the assistant club agent during the summer and also received help from a former local leader.

FREDERICK B. TURNER,

Director, Town of Pembroke.

ANNUAL REPORT FOR 1933 OF THE J. J. SHEPHERD MEMORIAL TOWN FOREST COMMITTEE

1933's portion of the State Forester's 5-year program in this matter has been carried out by girdling those hardwoods (principally oak) on the indicated areas which are preventing or unduly retarding the proper growth of the young white pine which is growing beneath such hardwoods, all in accordance with the State Foresters's five-year plan.

For 1934, this being the last year in the current five-year program of the State Forester, his plan, published in the Annual Town Report four years ago, recommends the following bits of conservation work for the Town to carry on:

1934

Areas No. 12, 4, and 6 contain merchantable white pine. The stands should be cut if logs are saleable to nearby box manufacturers. It is best to do this work in the winter months, as all slash can then be burned green in small piles. Reproduction, which is heavy on some of these areas, should be protected as far as possible since this becomes the basis of the new crop. The sale of pine logs should net several hundred dollars. Cost of burning slash will be approximately \$40.00 to \$50.00.

Scattered merchantable white pine can also be cut on area No. 1 if it is feasible at this time.

Spend some time cleaning up areas adjacent to all wood-roads and Mattakeeset Street, making sure that the fire hazard at all times is reduced to a minimum. Small amounts spent for this purpose each year may be cheap fire insurance.

It is recommended that the State Forester's five-year plan be followed by raising and appropriating the sum that plan recommends for 1934, namely, one hundred dollars.

With much pleasure the committee may now definitely announce that the annual fall convention of the Massachusetts State Conference of Town Forest Committees will be held in Pembroke in 1934 in connection with a probable demonstration by the State Forester and members of his staff, of the methods used in drawing up a second five-year Town Forest program for a Town, like Pembroke, which has successfully completed its first five-year plan prepared by the State Forester and his staff. And Pembroke is the first Town in the State, as far as is known, which has reached this stage of constructive conservational achievement, among the hundred or so Massachusetts Towns which now have Town Forests (which are not connected with water department developments).

Respectfully submitted,

J. J. SHEPHERD MEMORIAL
TOWN FOREST COMMITTEE,
S. B. HALL, Secretary,
WM. A. KEY, Chairman,
A. E. LORD,
E. C. THAYER
S. B. HALL, Secretary.

REPORT OF THE WATER COMMISSIONERS FOR THE YEAR 1933

The third annual report of the Pembroke Water Board covering the year ending December 31, 1933, is hereby submitted.

The number of Year Round Takers are one hundred twenty-three (123) and the Summer Takers seventy-four (74).

The number of Year Round Takers has slightly increased over last year, while the number of Summer Takers is less, due to the fact that several cottages at Little Sandy Pond district were not rented during the summer season.

The Year Round Takers are about 93% metered. Those services not metered are those for the most part have but one faucet and the known quantity of water consumed is below the amount allowed for the minimum quarterly charge, but principally due to the fact that adequate protection for a meter is not provided against freezing. To provide the necessary installation it would cost an excessive amount of money. We believe the economic condition has justified our action in the matter. As rapidly as possible these takers will be put on a metered service.

Total Water Rates committed for collection has shown some increase over last year. Total expenses of the Department was \$2,830.70 and the total commitment \$4,174.18 making a credit balance of \$1,343.48.

It should be borne in mind that the Water Department has had to face a severe economic situation, in common with others, from its beginning, which has had an adverse effect upon the amount of water commitments and collection of same.

A policy of reasonable leniency has been necessary in the matter of collections. In some cases it has been necessary to shut off the water for non-payment, and some liens have been attached to property in order to protect the Town's interests. The Town should feel gratified however that there has been some increase in the number of Year Round Takers, and in the increase of the amount of Water Commitments in spite of such disadvantages.

The amount of water purchased was slightly less than last year. No serious breaks or losses have occurred. Several meters were frozen up during the severe cold the first part of January this year. Water Takers should take more precaution to protect them from freezing as they are liable for the loss of water resulting and damage to meters.

The legal suit of Lefebere vs. the Town of Pembroke in the matter of water rates is still in the hands of the Court, and settlement is hoped for in the near future.

Receipts and Appropriations

(1) Appropriation made at Town Meeting held in March, 1933,	\$2,795.50
(2) Total Expenditure	2,789.35
	<hr/>
Unexpended balance	\$6.15
(3) Unpaid Bills:	
Town Infirmary, for storage	\$20.00
City of Brockton, for water	21.35
	<hr/>
	\$41.35

Itemized Expenditures

(1) Material and Supplies	\$101.06
(2) Hydrant Rental	110.00
(3) Water Truck expense, in- cluding garage rental, registration, gas and oil	120.79
(4) Printing and Supplies	25.54
(5) Miscellaneous expenses	39.88
(6) Freight and Express	1.97
(7) Postage and Telephone	18.89
(8) Labor	113.50
(9) Collector's Salary	100.00
(10) Superintendent's Salary	799.92
(11) Water	1,357.80
	<hr/>
Total	\$2,789.35

Amount Charged On Water Commitment Book

1931 Water Rates	\$1,018.19
1931 Amount collected	854.63

1931 Amount of Abatements	16.66
1932 Water Rates	\$3,896.64
1932 Amount collected	2,563.04
1932 Amount of Abatements	26.75
1932 Water Miscellaneous	\$653.36
1932 Amount collected	622.22
1933 Water Rates	\$4,174.18
1933 Amount collected	2,113.19
1933 Amount of Abatements	18.50
1933 Water Miscellaneous	\$215.70
1933 Amount collected	178.96
1933 Amount of Liens	476.02

Water Consumption

Water used in 1932	9,299,279 gallons
Water used in 1933	9,000,289 gallons
Total amount of water consumed through metered services in 1933	2,698,156 gallons
Estimated amount consumed by Summer takers	1,110.000 gallons
Estimated amount of water con- sumed through flushing and oper- ation of bleeders at dead ends	2,000,000 gallons

The balance of 3,192,132 gallons is made up of leakage, fire purposes and other losses.

The Department expects to use more water for flushing and bleeders next year to attempt to make the water of better quality in hot weather on certain lines.

The following vote was passed at the last Annual Town Meeting -

"That the Water Commissioners be and are hereby directed to make a thorough investigation as to the advisability of changing the present meter rate to a schedule based on a definite charge per fixture as adopted by the Town of Hanover and include those findings in the next Annual Report."

The primary thing to be considered in connection with a new Town Water System is the water rate, or the amount that should be charged for water, and this is based on the number of probable takers, cost of water, operating expenses, etc., and on the assumption

that those who provide the funds believe that the system should stand on its own feet and present a fair prospect of paying something on the interest charges on its indebtedness, in addition to paying for the water used, and its operating expenses.

From any other consideration or point of view, it would be haphazard action to assume a large debt for a Water System that could not, through a reasonable rate, provide means for its expenses, and to otherwise justify to some extent its establishment.

It has been shown conclusively from experience that the use of meters prevents waste, and conserves water supply. More and more, municipalities which have their own water supply are being 100% metered. In the case of Pembroke, every gallon of water is paid for at a definite price. Undoubtedly if we discontinued the use of meters our water bill would be increased one-third, which would make it necessary to *increase the water rates* in order to maintain our receipts.

It can be seen from the accompanying table that the per capita water consumption is considerably more where meters are not used and less as the percent of the use of meters increases.

The rates of water consumption for Pembroke were estimated as follows:

Water Consumption In Gallons Per Person Per Day		
	Year 1930	Year 1960
Year-round taker,	60	75
Summer taker,	50	65

The above figures are intended to include both the water used for domestic purposes and the leakage from water mains and household fixtures.

Statistics of Water Consumption In Massachusetts Communities

Community	Gallons per person per day 1930	Percent of services metered	1930 population
Abington and Rockland	44	100 %	13,396
Avon	57	65 %	2,414
Bedford	60	00 %	2,603
Cohasset	103	5 %	3,083
Duxbury	97	99 %	1,698
Great Barrington	75	2 %	5,934
Littleton	61	100 %	1,447
Randolph and Holbrook	68	53 %	9,906
Scituate	202	1 %	3,118
Sharon	57	2 %	3,351
Shirley	30	100 %	2,427
Wrentham	37	100 %	3,584

A more detailed explanation of these figures may be seen at the office of the Water Board.

The Water Commissioners therefore do not approve of changing the water rates to a basis of a definite fixture charge, rather than a metered method as adopted, for the reasons named in the report herewith.

Respectfully submitted,

GEORGE S. KERMEEN, Chairman,
BYRAN LEONARD,
WRIGHT L. WELLS,

Board of Water Commissioners.

REPORT OF MOTH DEPARTMENT

The moth work for the spring of 1933 was, of course, confined to spraying. Conditions around all the ponds — with the exception of Oldham, which was practically free — were bad. Here we not only sprayed well around the cottages and along edge of ponds, but back into the woods, where they were badly infested. We also sprayed along the streets. There are bad infestations from Monroe St. to Centre St., from Route 3 to East Pembroke. With large colonies in southern part of town. The fall work, we creosoted pretty thoroughly. Painting out large colonies from Marshfield line to East Pembroke. The C. W. A. project has helped out materially on this work, as we creosoted three hundred feet in on each side of Route 3 as well as School St. The State also furnished five hundred dollars worth of material.

I would recommend an appropriation of eighteen hundred dollars for the coming year, as we are barely holding control of them, not gaining much.

I would also recommend a small appropriation for Tree Warden, as there are a few trees which need to be taken down as well as some trimming to be done.

Respectfully submitted,

JOHN C. LEFURGEY,

Local Superintendent.

Winter Term—January 2 to February 17, 1934.

Second Winter Term—February 26 to April 13, 1934.

Spring Term—April 23 to June 22, 1934.

High School Graduation—June, 1934.

Fall Term—September 5 to December 21, 1934.

In addition to all legal holidays, schools will be closed for a Teachers' Convention in the Fall Term and the Friday following Thanksgiving Day.

ANNUAL REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Pembroke:

The school committee presents herewith its annual report and asks the citizens' earnest consideration of the appended reports of those school officials in whose hands has been placed the actual operation, supervision and conduct of the system.

The school department joined with other town departments within the past year in consolidating the insurance of all town buildings in one schedule. We believe that under a group insurance plan, the town will be more surely and intelligently served and the premiums more evenly distributed.

The committee again advises the town of a serious lack of playground space at the Bryantville and High schools, and reiterates the recommendation of the 1931 Appropriation Committee "—that adequate playground facilities should be made available at these schools where lack of space now makes impossible activities usually engaged in by growing boys and girls."

For many years the school committee has reported that the school system operated under a handicap due to the physical conditions of the high school building. Each year the old building has been repaired and brought into as good condition as possible. Last year the com-

mittee felt that, providing there was no increase in enrollment the building might be useable for some years longer. However, the 1933-34 enrollment rose sharply, and the situation in the already filled to capacity building became acute. There is no question that another large increase is to come in September and that there will be a shortage of not only class-room space, but also of equipment. It may be possible to remodel the assembly hall into class room space to meet this large increase, but it will be costly. We believe such a plan can not give permanent satisfaction and efficiency, and could be considered only emergency relief. The school will still be without adequate science laboratories, study rooms, domestic and manual art laboratories and gymnasium, and moreover, will have lost its room for assembly, dramatics and social activities. Lunch room and toilet facilities will be crowded, and there will still be no playground.

The budget proposed for 1934 contains an extra amount of between fifteen and sixteen hundred dollars. It is estimated by the committee that this amount will barely cover the expense of replacing a part of the heating plant and purchasing furniture equipment for these extra students.

At present a committee sponsored by the Parent-Teacher Association is making a thorough investigation of the possibility of securing Federal aid for a school building and playground project as many other towns have done. The school committee believe that a new building, discussed by the town for many years, is now urgently needed, and has cooperated with this committee to the end that a plan may be in the immediate future placed before the voters. The citizens of Pem-

broke have before them a real problem, and we urge them to give it careful thought before they, by their vote, direct the committee how it shall proceed.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

May I call to your attention and to the townspeople of Pembroke some facts in connection with the serious situation now confronting the School children of Pembroke, particularly in the High School.

For the past three and more years we have attempted to carry on satisfactory high school work in the present school building with steadily increasing numbers of pupils, in much overcrowded quarters, inadequate numbers of rooms, and without sufficient seats and equipment. We have tried our best to meet the general depression situation with the facilities available, but have now come to the point where something must be done, to give the space and rooms needed. Either a temporary solution or a permanent solution can be made now.

The George Francis Hatch High School building now houses some 140 children, in a building that gives accommodations for only the old type academic instructions (entirely book-learning) for a much smaller number, about 100 to 110 pupils. The building is now overcrowded and very inconvenient even with the best of planning and use. The educational results are entirely one-sided, to the benefit of the academic minded child mostly.

In September, 1934, it is certain that there will be about 160 children or between 20 and 25 more than at present. The condition that is now crowded will, in September, become almost desperate.

The present teaching staff is doing a very good job in educating Pembroke's children with the cramped quarters and facilities. Nevertheless, the present high school shows a heavy falling off in membership in the junior year. This seems to show that our courses are rather too limited to meet the needs of the students who are not book-minded, but who need other training as well.

DESPERATE NEED FOR GREATER QUARTERS

A conservative estimate will give us some 160 pupils in the George Francis Hatch High School building in September, 1934. This is 20 to 25 more than last September, when the total was 142. The following table shows the probable sizes of grades and classes to be accommodated:

Estimated Classes September, 1934.

Seniors (grade 12),	9
Juniors (grade 11),	26
Sophomores (grade 10),	28
Freshmen (grade 9),	35
	<hr/>
Total Senior High,	98
 Eighth grade,	 33
Seventh grade,	36
	<hr/>
Total Junior High	69

Total for Building estimated September, 1934,	167
Compared with actual September, 1933,	142
Estimated Increase in One Year,	25

(Table of Memberships, at end of this report, should be carefully studied to show that this is not temporary).

The building at present should accommodate about 100 to 110 at the most.

OUR PRESENT BUILDING

For several years the School Committee has endeavored to operate the George Francis Hatch High School to accommodate as many as possible of the minimum courses of a six-year high school, in a building designed for not over 100 pupils, also to accommodate town meetings and many functions of various other town organizations in the same building.

All of the class rooms, now overcrowded, are used every period to capacity. The auditorium is used every hour of the school week for a study hall as well as often having a class in it.

MORE ROOMS NEEDED

Grades VII and VIII are housed in the Annex which was erected a few years ago. Both rooms are used to capacity now. In the rest of the building (the old George Francis Hatch High School), there is one room available, and now crowded with furniture, to give a capacity of 30; one small commercial room, capacity of 10 typewriting students or 15 stenographers, one small recitation room, normal capacity about 10, now overcrowded to 20; one

small science laboratory, capacity 6, now overcrowded to 10, and an assembly hall with stage, which must take care of all of the rest of the classes.

It is impossible to concentrate all materials of one subject in one room. Science materials are scattered throughout the building. History materials are scattered in three rooms. English materials in three rooms. To get adequate space, classes have to displace each other for the requisite number of seats, black board space, and light.

FURTHER HANDICAPS IN THE HIGH SCHOOL

At present there are at least 30 pupils out of 140 that have no home-station desk or chair. That is, their books, papers and supplies must be kept on shelves or tables, tablet arm chair or any place that space can be found. In September, 1934, there will be a shortage of at least 50 home-station desk and chairs.

These 50 additional units for adequate home-stations, will have to be placed in the auditorium, the only remaining space available. While this furniture is movable, there is no space to store it and it will be impossible to clear the floor of the auditorium for any large amount of space for dancing, social activities, or town meetings.

Two additional rooms must be provided by September 1, 1934, in some way, if the school committee is to carry through a proper program for all the children that are expected.

PEMBROKE'S SCHOOLS CAN BE CENTRALIZED

All of Pembroke's school problems can be solved for some time by centralizing most or all of the school chil-

dren in one locality. Adequate playgrounds, gymnasium and auditorium, classroom and other facilities can be provided for the different grade groups and for the whole body of students.

Such a plan can be carried out even in this depression time, through the aid from the Federal Government, or through Pembroke's own resources.

The State of Massachusetts gives much support for the operation of schools, but nowhere has any aid or support been given any town or city of this state for erecting school houses, or providing playgrounds, until the present. The opportunity is still here, but will pass if we do not take advantage of it promptly.

Centralization of all schools has a great many advantages over the present scheme, but space is too short to present them in this report. One advantage must be pointed out, however, the far greater gains in learning possible where pupils and teachers of successive grades are together and use the common facilities that all pupils need and do not now have.

Most of the present school plant can be used in centralizing the Schools of Pembroke. The rest is in comparatively easy reach.

1933 A GOOD YEAR

The teaching work of the year 1933 has been very good. Every teacher responded with renewed vigor and effort, because of the support given the schools at the last March meeting. Handicaps were cheerfully met. The teaching is of increasingly good quality. In addition,

many of the teachers have taken Summer and Winter courses at their own expense, in Schools of Education and Teachers' Colleges, to make their work better.

The outstanding feature of the year is the marked improvement in the teaching of history, geography and social sciences in grades 5 through 12. The continuing improvement in primary reading through new text books and new and effective methods should also be noted and commended. Much more good work has been done, but space is too limited to list it all.

The results of the health work, prevention of tuberculosis, diphtheria examinations and guarding against spread of disease is recorded in the reports of the school doctor and nurse. The dental clinic had to be suspended for this year to give way for other pressing needs. The need for more dental work is reappearing again, after one year. Some dental work should be done in 1934, especially for the younger children.

The Parent-Teachers' Association has held a number of inspiring meetings where personal and general problems of growing children, and plans for the future have been discussed and laid. All of these faithful and interested persons have helped our children greatly in these difficult days.

IN CONCLUSION

The School Committee has given freely and even extravagantly of its time and thought to the problems and work of the schools. They have kept constantly in mind the welfare of the pupils as well as the resources of the town. Their work has been a great help and inspiration to the whole staff.

May I thank them for their work and consideration during the past difficult year. I wish to thank also, all of the teachers, supervisors, janitors and staff for their whole-hearted work.

Respectfully submitted,

CHARLES W. LAWRANCE,

Superintendent of Schools.

REPORT OF PRINCIPAL OF HIGH SCHOOL

To the Superintendent of Schools and the School
Committee of Pembroke:

Gentlemen,

I herewith submit to you my fourth annual report as principal of the Pembroke High and Junior High Schools.

In addition to the regular semi-monthly assemblies held during the winter and spring, there were several other programs worthy of particular notice. Movies were shown three times: by the General Baking Company on "Bread Making", by the Plymouth County Health Association on "Tuberculosis", and by Mr. Tilton from Kingston on "Wild Life". Mrs. Davis, Mr. Talbot from the Audubon Society, Mr. Ewing and Miss Snow from the county 4H clubs, gave illustrated lectures on "Our National Parks", on "Birds", and on "Flowers, Vegetables, and Gardens", respectively. Special programs were held in observance of all the holidays commemorating various events of national import; prizes were awarded to Antoinette Lidington for her essay on "Abraham Lincoln", and to Charlotte Lang for her essay on "Memorial Day". Letters were given to the members of the various athletic teams, and typing certificates and pins were given to those in the Commercial Department who earned them in speed tests in typewriting. A Pageant of History was

given by the Social Science classes, with the singing of songs in French by the Modern Language classes.

The Senior Play "The Adventures of Grandpa," coached by Miss Mayse, was presented successfully to the public in January; a card party, the Junior Prom, and the Senior Reception were the social events of the spring. The basketball teams, both boys and girls, fought courageously against handicaps, and gave good competition to larger and better equipped schools. The Parent Teachers' Association held an enjoyable reception in their honor at the end of the season. The baseball team won about one-half of the games played, proving again that Pembroke could be as good as the best of them if not handicapped by lack of proper facilities. The school magazine, "The Mattakeesett," was issued in June, just a short time before graduation.

Stanford Achievement Tests and Terman Intelligence Tests were given during the spring, continuing the policy of checking up each year. The United States History, Social Science, and Commercial Law classes were taken in a group by their teachers to visit a session of the Plymouth Court, as part of their training to be good future citizens.

A drawing exhibit by Mr. Warner, the singing at the graduation exercises under the direction of Miss Kane, and the awarding of the first medal for excellence in the United States History to Walter Pratt were some of the main features of the last week of school and the graduation exercises, which were held before a capacity audience in the High School auditorium.

School opened September 6, 1933, with an increase of about fifteen per cent over last year, making the prob-

lem of overcrowded conditions even worse than before. Apparently the time is not far distant when something will have to be done to relieve the pressure, for the incoming classes outnumber the graduating classes by more than two to one.

The teaching force is exactly the same as last year, a fact which makes for better results in the schools due to the continuity of the teaching. Constantly changing teachers puts an undue burden on the children, for it makes them learn different methods of procedure with each change, since all teachers differ widely in their methods. Miss Marsden is in charge of the girls' athletics, Mr. Morse coaches basketball, and Mr. MacCracken coaches baseball; all the teachers cooperate in the supervision of the outdoor physical education period, which is held twice a week.

Two magazine-selling drives were sponsored by the Curtis and Crowell Publishing Companies this fall as usual, and the small profit will be used to help out in our athletic expenses. Mr. Davis gave an illustrated lecture on "Our Glorious West", a heating expert gave a talk to the seventh grade, and the MacDonald Coal Company showed some movies on "Coal Mining". The Chadwick Clinic took x-ray pictures of those who had shown tubercular symptoms, thereby finishing up the program of education and prevention that had been started on this disease.

Assemblies have been held as usual; Walter Pratt's essay on "The Meaning of Armistice Day," was adjudged the best on that subject and was read during the exercises. The Senior Class held an Armistice Ball on November tenth, assisted by the local American Legion Post, with appropriate ceremonies at eleven o'clock. The Sen-

iors also held a baked bean supper, and a candy sale to raise money for reception expenses. The Junior Class gave a Hallowe'en Dance, and the Sophomores and Juniors together gave a social party to the same group of boys from Everett who came down here before. A Christmas party was held in which small gifts were exchanged.

Fire drills have been held on an average of one a month; it is possible to empty the building in less than a minute, even with some of the exits purposely blocked.

An innovation this year is the old-fashioned spell-downs, which are held frequently in the school. A prize has been offered to the pupil making the greatest improvement in spelling during the year, so the competition is quite keen.

Attendance percentages are 95% for the Junior High School, and 93% for the Senior High School, and tardinesses are frequent except in certain cases.

Several parents have visited the school during the past year, and there is a standing invitation to anyone who is interested to visit us at any time. Co-operation between parents and teachers is essential to the continued well-being of the school.

In conclusion, I wish to express my appreciation for the loyalty of the pupils, and for the cooperation of the teachers, the school committee, the superintendent, and the parents.

Respectfully submitted,

HAROLD J. MORSE,

Principal.

REPORT OF THE SCHOOL PHYSICIAN

Mr. Charles W. Lawrance,
Superintendent of Schools.

Dear Sir:

During the year 1933 the health of the pupils was generally good. There was no epidemic and only a few cases of Chickenpox appeared now and then. Regarding chickenpox — and mumps may well be included — I suggest that the rule which in the past has been followed for the exclusion of well children from school, when a member of the family has the disease, be abrogated. Those diseases, neither of which, in children, is really serious, happen to have an unusually long period of incubation— from 20 to 25 days—and it is manifestly unfair to exclude a child from school for possibly three weeks because his brother or sister has chickenpox or mumps. I advise that in the future, such contact children continue at school until they show some signs of the disease under consideration. In cases of scarlet fever, measles, infantile spinal paralysis and other such serious diseases, the rule for exclusion of contact children is, however, vitally important and should be rigidly enforced.

We had one mild scare of scarlet fever in May because of the report of a case. To guard against an epidemic of such formidable malady I visited the lower grade schools and inspected or examined all from primary to the sixth grade. No sign of scarlet fever was found.

In making the annual physical examinations in September, by far the most frequent defects that appeared were carious teeth. I jotted down all the cases as they came before me and here is the result:

First grade, 7 children (one-third of the class) 30 teeth.

Second grade, 12 children, 40 teeth.

Third grade, 13 children, 41 teeth. Of course, in these earlier grades there are many decayed first teeth which, parents hope, will be replaced by perfect ones.

Fourth grade, 9 children, 30 teeth.

Fifth grade, 18 children, 45 teeth.

Sixth grade, 1 child, 2 teeth. There are 35 pupils in this grade today, December 20. The remarkable difference between this and the other grades can be accounted for largely, I believe, by the fact that in 1930, Dentist Dr. Crowley, of Whitman, came down a number of times and treated the teeth of these children when they were in lower grades.

I strongly recommend that in the forthcoming town meeting an appropriation for dentistry be made.

I would further suggest that the town sponsor another series of clinics for the administration of the toxin-antitoxin treatment for the prevention of diphtheria to children under the age of ten years. This would take in, of course, only those who had not previously had the treatment.

Respectfully submitted,

J. EDMUND BROWN, M. D.,

School Physician.

REPORT OF SCHOOL NURSE

South Hanson, Mass.,

December 15, 1933.

Mr. Charles W. Lawrance,
Superintendent of Schools.
Pembroke, Massachusetts.

Dear Sir:

I hereby submit my report as School Nurse for the year ending December 31, 1933.

Number of school visits,	119
Number of home visits,	115

Children were weighed and measured every three months:

Children 10 per cent or more underweight,	13
Children 20 per cent or more overweight,	3
Number of class room inspections,	130
Assisted Dr. Brown with the physical examinations.	
Assisted the teachers with the eye testing.	
Number of children found with defective eye-sight,	23
Number of children excluded because of contagious diseases,	21
Number of health talks,	37
Number of children registered for the pre-school clinic,	13

Number of children examined by Dr. Brown at the
clinic,

7

In May we held our pre-school clinic and in order that we might report a 100 per cent clinic, Dr. Brown very kindly gave his services for a second day.

May Day was observed with appropriate exercises prepared by the teachers.

I wish to thank the Teachers' Club for the money donated toward the Tonsil Clinic through which one child was relieved of diseased tonsils and adenoids. I also wish to thank Superintendent Lawrance, Dr. Brown, teachers and parents for their continued support.

Respectfully submitted,

LYDA BOULANGER,

School Nurse.

REPORT OF SUPERVISOR OF DRAWING

Mr. Charles W. Lawrance,
Superintendent of Schools.

Dear Sir:

The large increase in the number of High School students taking drawing (where drawing is elective) the past few years, attest notably to the interest taken in this subject. While this year the high school class has exceeded all our previous records for numbers, as we have an enrollment of fifty-five workers, which requires two rooms for their care.

On account of the limited time at our disposal, the seventh and eighth grades have to be taken for a working period of forty-five minutes — that is, two grades are taken care of in the time usually required for one.

At the Central school the workers in the grades above the first are taking preparation work, and the same careful, though more advanced work is being done in the two room school house in Bryantville.

The townspeople who attended the graduation exercises at the high school, last June, were enabled to see a demonstration of the work done for the year in all the grades except the first.

Able assistance on the part of the regular teachers does much to promote the work in hand.

With sincere thanks to the Superintendent and School Committee and teachers for their courtesy and co-operation,

I remain, respectfully yours,

SAMUEL WARNER,

Supervisor of Drawing.

REPORT OF SUPERVISOR OF MUSIC

Mr. Charles W. Lawrence,
Superintendent of Schools.

Dear Sir:

Music in the schools during the past year has been continued on a systematic plan as in previous years.

In order to instill a love for music, a feeling for rhythm and the ability to sing, rote songs are taught the child entering school. Songs with action and singing games play an important part in the earlier grades. The success of the teachers working with me in elementary mono-tones has been most satisfactory.

Ear training and more rote songs are continued in the second grade until the child is prepared to have music presented in staff notation.

The method of teaching music corresponds to that used in reading, since the song is first taught as a whole and then studied in relation to its motive and figures.

The first four grades presented an operetta "Mother Goose Island" during the year and it was very successful.

In the later elementary grades drill work is given special care, Time, Tone and Theory being given serious study. Two and three-part music are a part of the program.

The Junior High School music seems the most difficult and the progress is slower at this point, since only one period a week is given to music and the interest is apt to wane.

However, the enthusiasm of High School pupils proves that there is a real love of music being developed, for the work is very much in earnest and the results most gratifying. Results at graduation have proven that they are doing serious work.

I wish to express my thanks to the School Committee, Superintendent and teachers for their cooperation in making the year a profitable and pleasant one.

Respectfully submitted,

MARGARET J. KANE,

Supervisor of Music.
